

TRANSPORTATION ASSET MANAGEMENT COUNCIL
MONTHLY REPORT: October 2004

1. The Council held their regularly scheduled monthly meeting on October 6, 2004. At the meeting they had a presentation on RoadSoft and its capabilities as a pavement management tool.
2. Data Collection: As of October 26th, 75% of the federal-aid eligible miles had been rated.
3. Year-End Billings have been coming in from the various MPOs and regional planning agencies. As of the end of October over \$540,000 has been expended in this area for data collection, training, development of pilot projects, etc.
4. Pilot Projects: Three agencies have submitted pilot projects. These will be reviewed by the Council and dealt with at the December 1st meeting.
5. Vendor Fair: Staff has spent considerable time organizing the vendor fair and workshop scheduled for November 8-10. Seven vendors will be participating and over 50 individuals will be in attendance for the workshop with the MPOs and regional planning agencies.
6. Reporting Investment Data: Work continues on the development of definitions for reporting categories and the various work activities that would be associated with each one.
